

Hello Cessna R/TR182 Owners & Pilots,

Checkout the [www.CessnaR182.com](http://www.CessnaR182.com) Community and Knowledge Base areas where there's a lot of useful content

for Owners, Pilots and R/TR182 operators. Feel free to post and share items of interest to the group in the Forums area.

You get to the Forums <https://cessnar182.com/phpbb/> via the Forums link in upper left of the Home page.

If you haven't heard the R/TR182 Type Club promo spot on Max Trescott's Aviation NewsTalk podcast it is attached. Please share it with other Owners & Pilots of our type and suggest they go to [www.CessnaR182.com](http://www.CessnaR182.com) and create a login. Our goal is to have enough site members to attract advertisers so we can acquire things like loaner tools and other resources to allow R/TR182 operators to save \$ when performing specific Service Bulletins like SEB95-20. The SEB95-20 drill tool (PN:1290009-3) is about \$3K and would be ideal to loan out to members to prevent NLG collapse.

There are still seats available for the **Cessna Pilot's Association November 15-17 R/TR182 Systems & Procedures Class** in Corona, CA with Paul New.

See details at <https://cessnar182.com/wordpress/3680-2/>

We tried to order T shirts with the below logo however the vendor is out of stock. So we've ordered example long sleeve tees

for review and will order inventory once we know they're good quality.

Thanks for your feedback and comments.

Enjoy!
